thing to do with the collapse and the failure of Commonwealth, although many people believe he was part of the cause of that failure. Second, Paul Douglas did not steal. Paul Douglas is not a thief. Paul Douglas is not a crook, although it has been portrayed that he is all of these things. Third, Paul Douglas did not use the influence of his office for personal gain, although there are some of you who would lead you to believe that he did. Fourth, it will be said Paul Douglas failed to do his duty to investigate Commonwealth when the record shows that neither he nor his office was ever requested to do so. That is what the record will show. It will be said that he received the letter from the FBI stating that there were criminal goings on at Commonwealth. Absolutely not true. A carbon copy of a letter stating it appears a loan has fraudulent intent and could also be a violation of the Nebraska banking regulations referring to a loan at Commonwealth. That letter was sent to Paul Amen and said, if you, Paul Amen, wish to pursue this matter, please contact Agent Campbell. Now on the floor of the Legislature you had passed out a few minutes ago the first page of that letter, just the first page. What does the second page say? This is to Paul Amen. It is standard procedure for a state agency to deliver in writing a memorandum in fact of law which states where the Department feels the law has been violated and requests the Attorney General's office or Paul Douglas, or whoever it is, to take the proper action. Paul Douglas never, never received such a notice. In my opinion, Paul Douglas is being made the scapegoat in the Commonwealth affair. Some attorneys have been working weeks and weeks gathering, compiling legal words to finish off Douglas. Some have said the Paul Douglas issue is a political issue. I do not know if it is
